Native Plant Solutions

Creating Natural and Sustainable Landscapes

Ecological Restoration Workshop

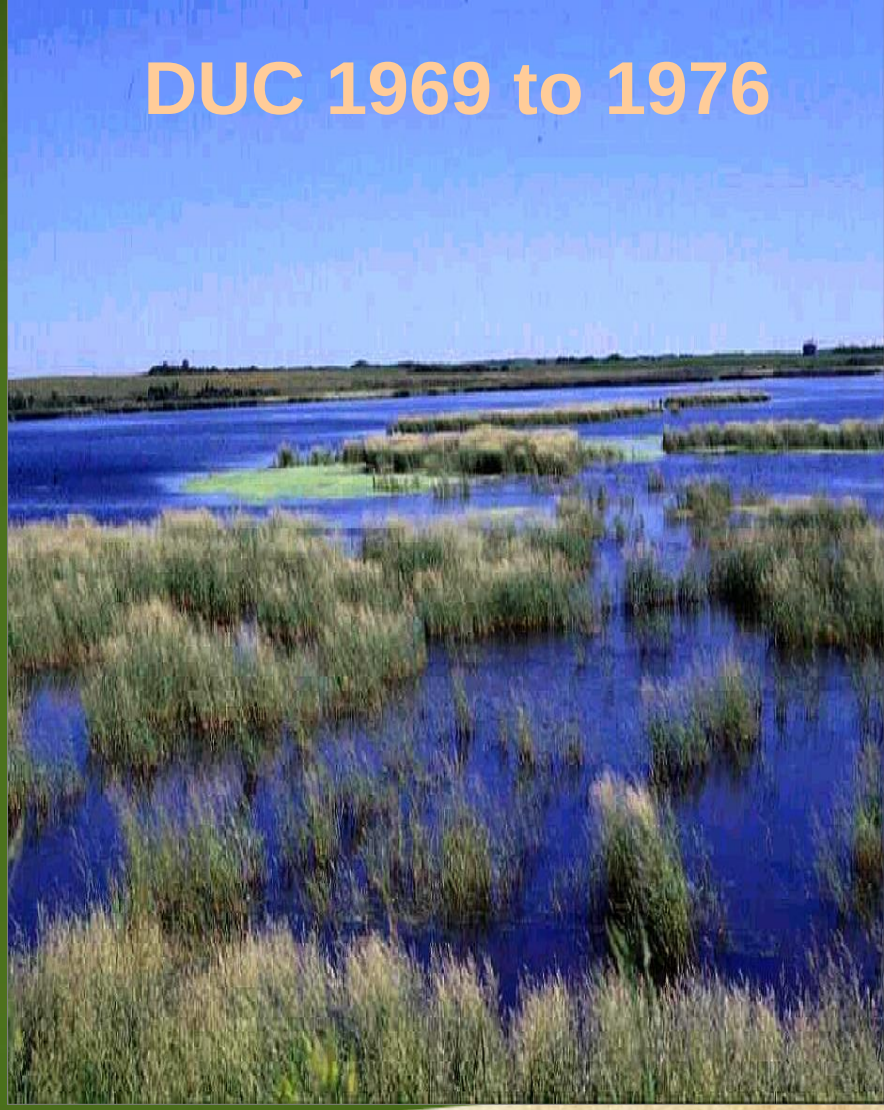
March 21st, 2018

Prepared by: **Glen Koblun**

NATIVE PLANT SOLUTIONS

DUC 1969 to 1976

- Good water years
- Relatively poor reproductive success of waterfowl
- What should have been outstanding production years were no better than mediocre



NATIVE PLANT SOLUTIONS

DUC

Mid – Late 1970's

It was becoming evident that upland habitat was a limiting factor for waterfowl production

NATIVE PLANT SOLUTIONS

Development of Upland Nesting Cover Utilizing Native Species

Just as we needed the right tools and methodology to *develop and manage water resources…*

we also needed the right tools and methodology *to develop and manage upland nesting cover*

NATIVE PLANT SOLUTIONS

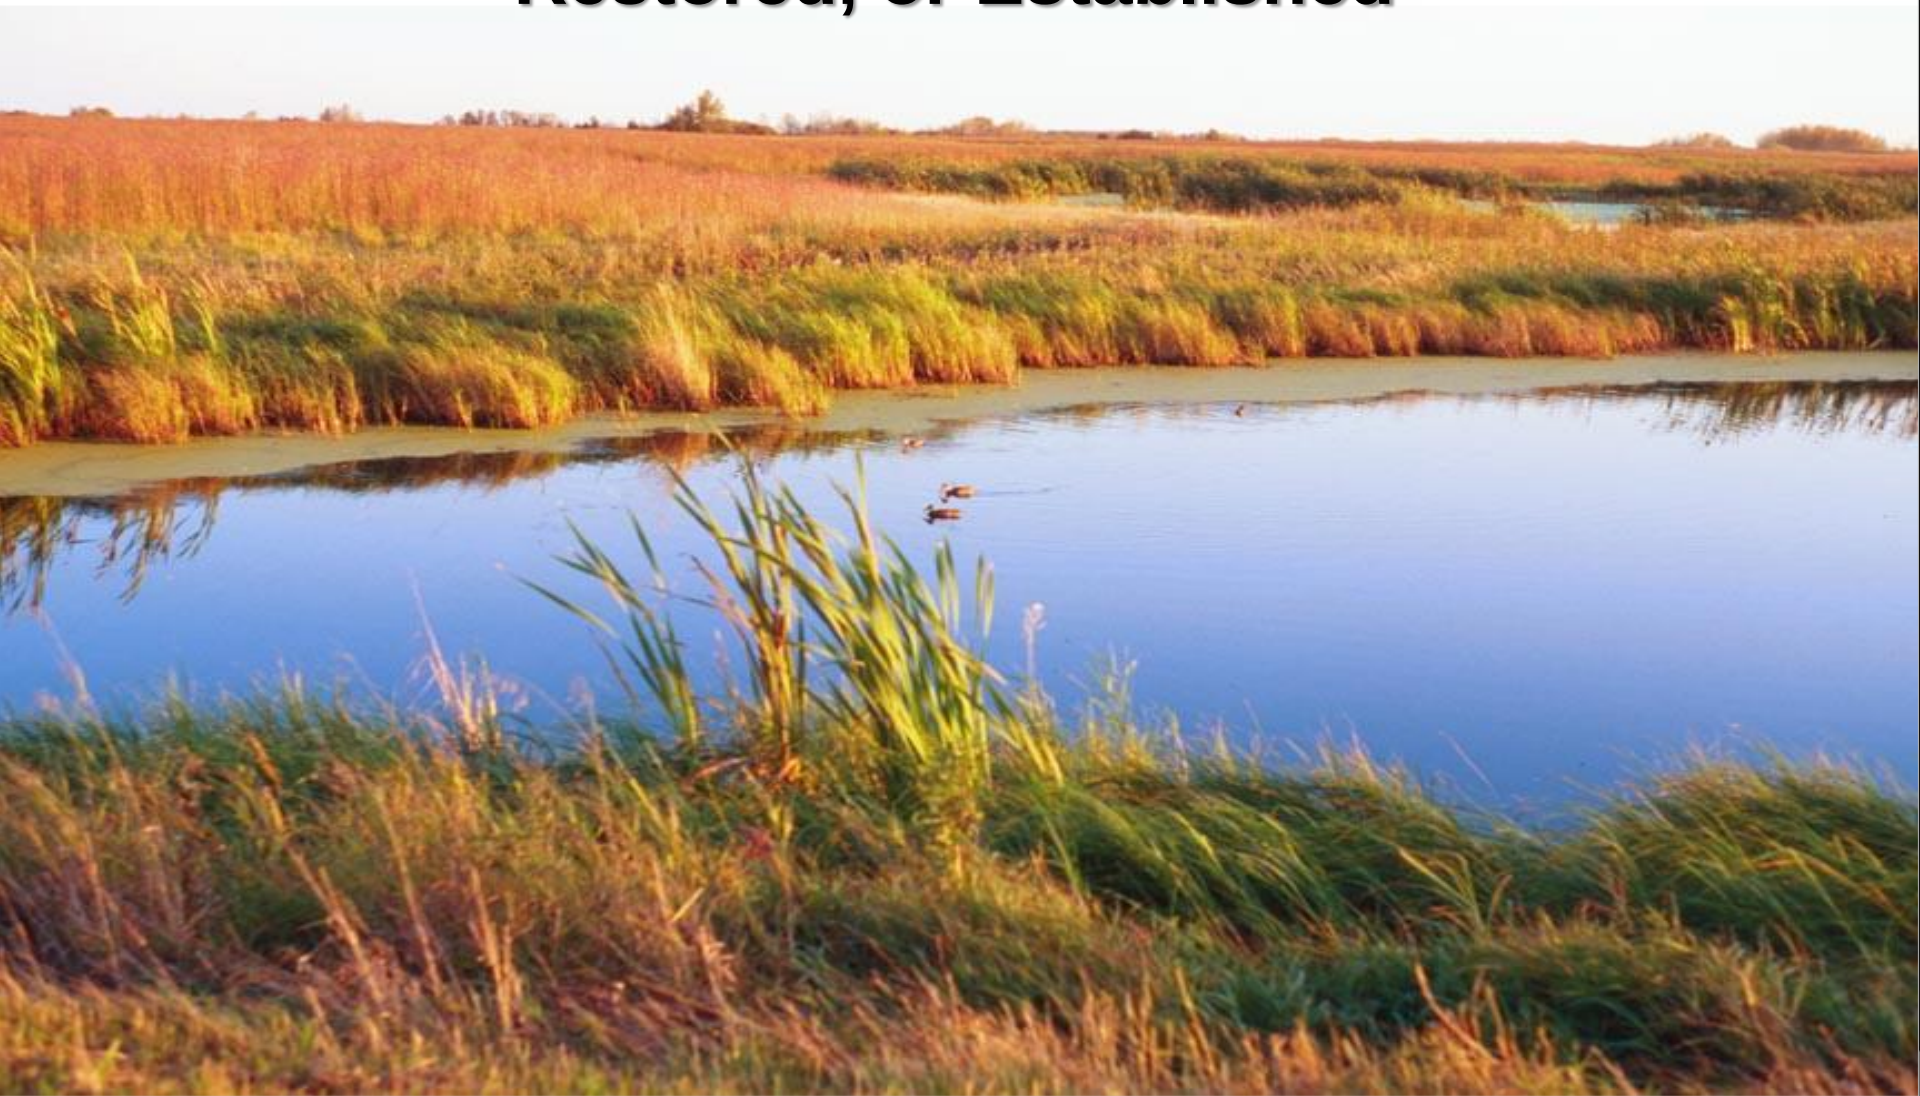
Restoration is More Than….

- More than an addition of seed to the soil (biodiversity)
- More than just a specification (installation)
- More than walking away letting it do it's own thing - pulling mowers or no maintenance

NATIVE PLANT SOLUTIONS

40 Years Experience in Upland Native Habitats
150,000 + Acres Secured, Protected, Managed, Enhanced, Restored, or Established

80 Years Experience in Native Wetland Habitats
6.4 Million Acres
Protected, Secured, Managed, Enhanced, Restored, or Established



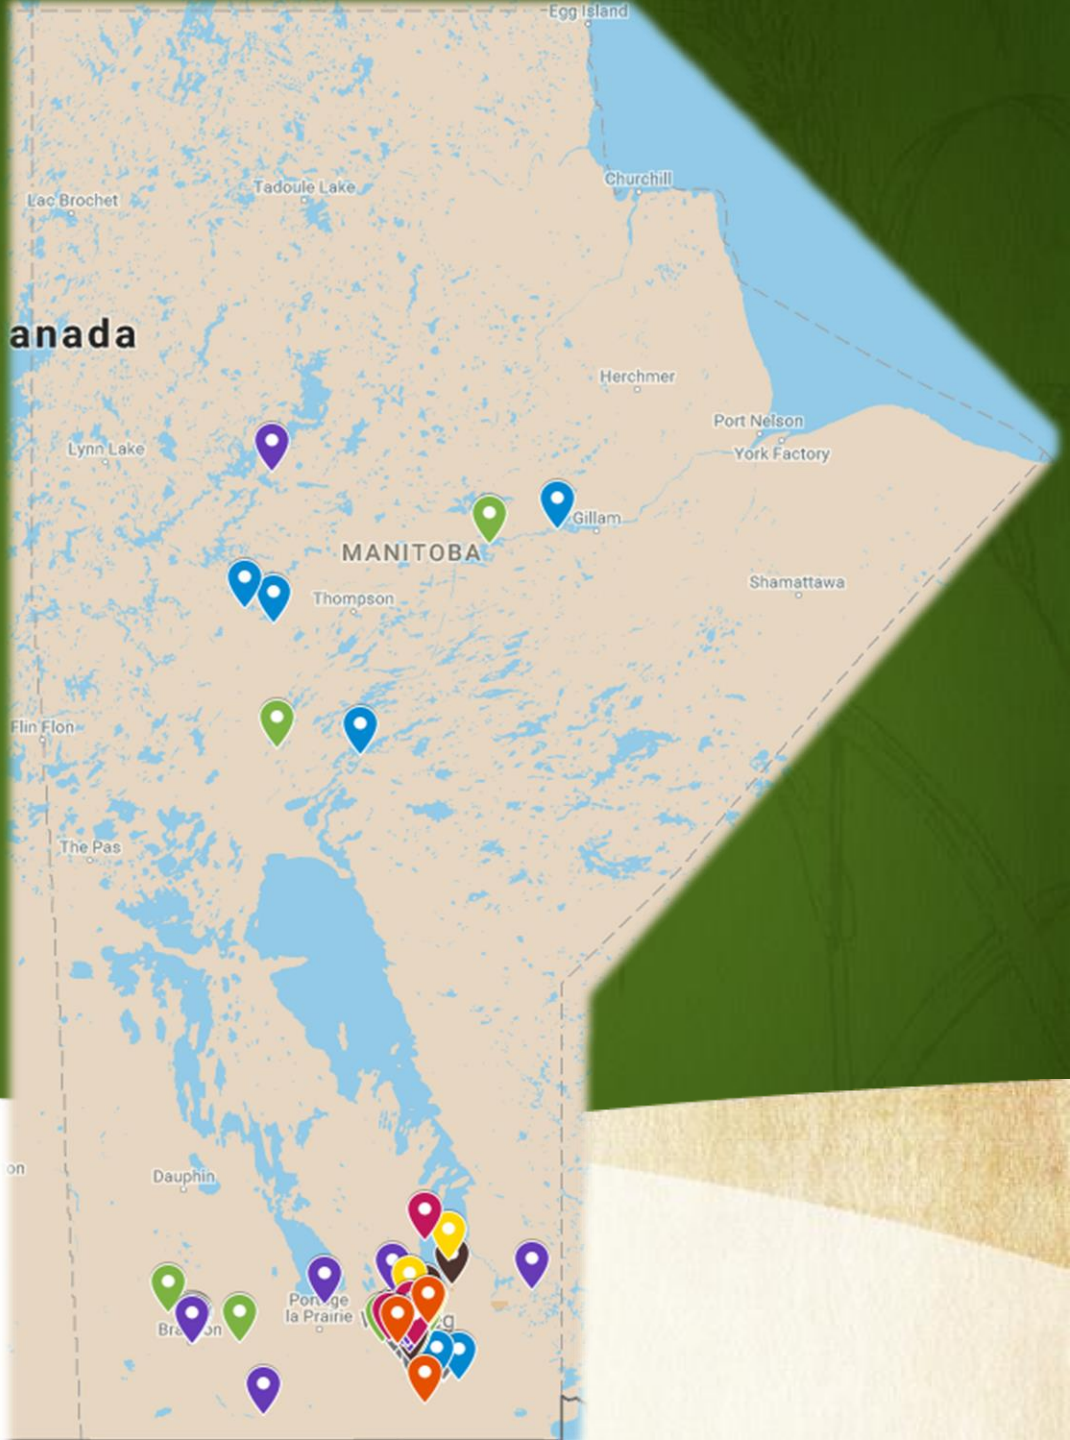
What We Do….Our

- Project Locations
- Products
- Services
- Clientele

NATIVE PLANT SOLUTIONS

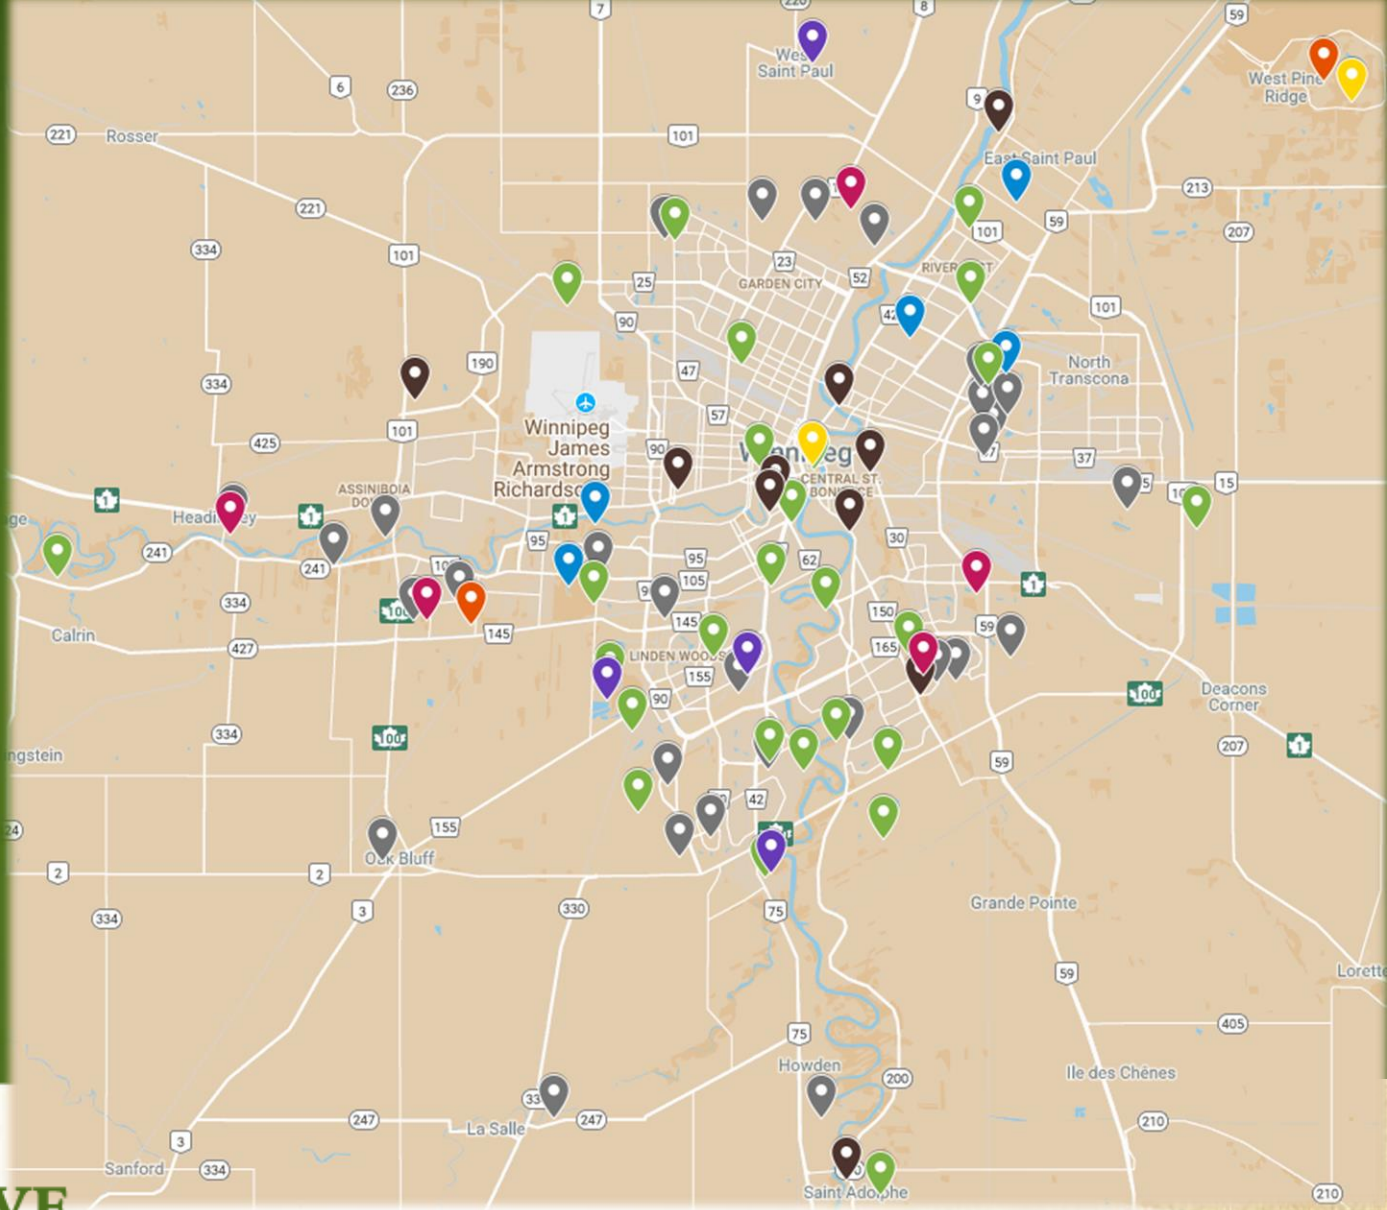
NATIVE PLANT SOLUTIONS

- Wetland/Upland
- Wetland
- Upland
- Riparian
- Document
- Green Roof
- Inventory
- Land Management

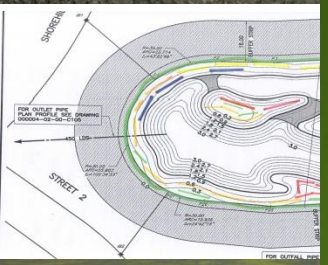


NATIVE PLANT SOLUTIONS

- Wetland/Upland
- Wetland
- Upland
- Riparian
- Document
- Green Roof
- Inventory
- Land Management



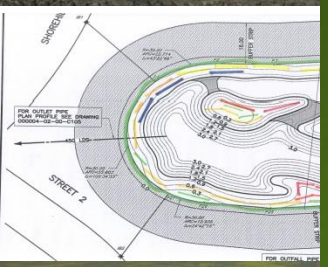
NATIVE PLANT SOLUTIONS

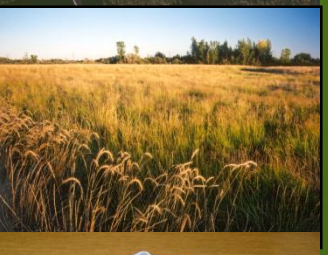


Services

- Project Advisory, Consulting, Design and Installation
- Construction/Contract Management
- Site Maintenance/Management
- Environmental Services
- Public Outreach
- Technology Transfer
- Erosion Control
- Landscape Architect & Engineering

NATIVE PLANT SOLUTIONS

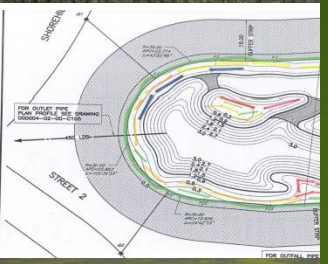




Products

- Naturalized Wetland Installation
- Naturalized Upland Installation
- Remediation and Restoration Installation
- Riparian Reclamation Installation
- Green Roof Naturalization
- Development of Native Plant Materials Ecovar [tm]

NATIVE PLANT SOLUTIONS



Clientele

- Land Developers
- Landscape Architect & Engineering Firms
- Mining & Energy Industry
- Municipal, Provincial and Federal Governments
- NGO's i.e. Fort Whyte, NCC, MWF
- Environmental Consultants
- Forestry & Agriculture Industry
- Transportation Industry

NATIVE PLANT SOLUTIONS

Sound Science is the key to our success in how we designs and establish habitat biodiversity!

Thank You!
Creating Biodiverse Natural and Sustainable Habitats
