

**Nature Conservancy of Canada properties available to producers
in a drought emergency - 2019**

Interested producers should call 1-866-683-6934, indicate which area of Manitoba they are inquiring about, and will be directed to the appropriate local NCC land management expert.

*NOTE: some properties currently have infrastructure or technical constraints to be addressed in the event of a use request. NCC land management experts will discuss these constraints as inquiries are received.
