

How to track your paddling distance

Below are some suggestions on how to track the distance you covered during the Paddle for Nature Challenge:

1. Google Maps on your smart phone

- a. Use a pin to mark where you started and finished and measure the distance between both pins.

2. GPS Unit

- a. If you have a GPS, you can log your route(s) and calculate the distance.

3. Apps on your smart phone

*Recommendations provided by angleoar.com

- a. Strava
- b. MapMy
- c. Endomondo Sports Tracker
- d. Relive
- e. Routie

4. Estimate

- a. Forgot your phone? Didn't start the app? Provide us with your best estimate on kilometres travelled.

5. Submit your results on your individual fundraising page through [Race Roster](#)
